WorksZone Collaboration Tables | Range

WorksZone is a range of flexible and mobile technology enabled collaboration tables. With user comfort in mind, each table has been meticulously designed to be as ergonomic as possible, whilst adhering to the demands of spaces it is deployed in. WorksZone is ideal for active learning environments in universities as well as meeting points in corporate breakout spaces. Whatever the environment, WorksZone bridges the gap between people and technology.

Ellipse

Highly popular shape due to its ergonomic group focused design

3, 6, 8 & 10 seat options

Trapeze

Ideal shape for video conferencing and screen focused activities

3 & 6 seat options

Ellipse

Ideal huddle shape whilst promoting group based work

3 & 6 seat options

Rectangle

Suited for maximising workspace per user.

3, 6, 8 & 10 seat options

Folding

Suitable for flexible learning spaces whereby the uses of the room change. WorksZone Folding Tables can fold up in under a minute. and can be nested together to help with storage.

Elipse, Trapeze, Oval & Rectangle 6 seat options

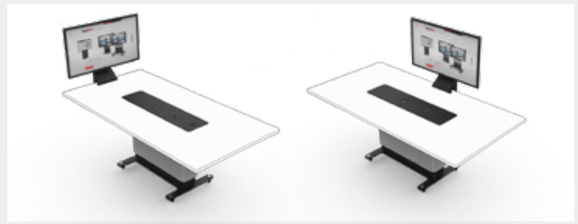
Pod

Ideal for breakout areas and for more private discussions. TeamMate can supply a range of sound absorbent fabric options.

2, 4 & 6 seat options

WorksZone | Key Features

WorksZone has a range of key features that can enhance your meeting experience. The ergonomic design and contemporary look and feel of WorksZone, enables it to be used in a variety of spaces, from meeting and huddle rooms, to active learning and flexible teaching areas.



1. Mount your screen
WorksZone's multi-positioning screen support can be fitted at the end of the table or on the side, depending on how you want to use your space.

2. Customise your connectivity
Choose from a range of power, inputs and 3rd party configurations integrated into the central connectivity module.

See connectivity options on page 10

3. Mobile castors
Each table has the ability to be moved once deployed. Perfect solution for flexible and agile collaborative environments.

Height adjustment option
VariHite is an option that can be added to enable a sit/stand workstation. Height adjustment is essential for spaces to be equality act compliant.

5. Choose your colour!
TeamMate WorksZone Tables comes with a wide range of worktop colours and finishes from across the Formica Group range. There is also a range of edge options available including: Banding, Armour and Painted to match.

See colour choices on page 7

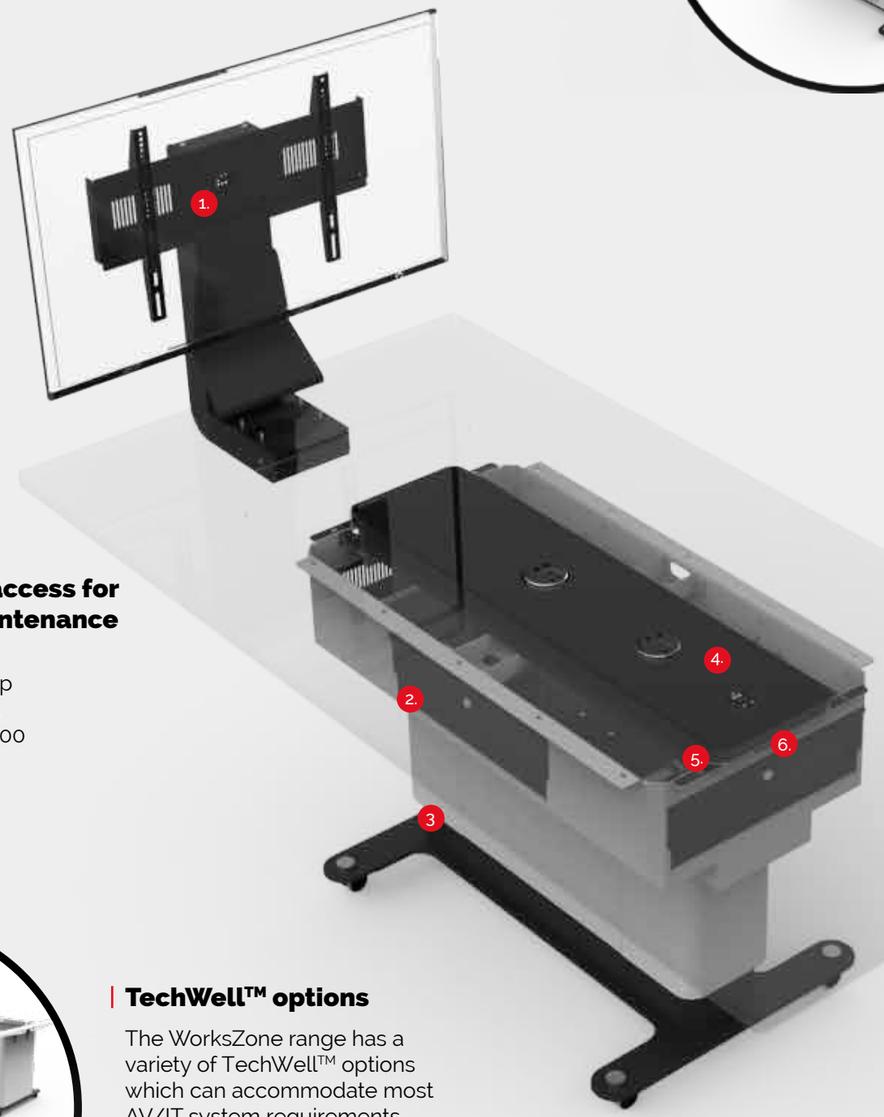
6. Secure your equipment
The TechWell™ on every WorksZone comes with inbuilt 19" rack storage compartments for securing PC's and other AV/IT equipment.

WorksZone | Technical Details

WorksZone brings together people and audio visual technology. Each WorksZone Table can securely accommodate a range of AV/IT equipment within its 19" rack facility. It also has a range of key technical features which enables users to maximise their meeting potential, from clever cable management solutions, to a user friendly and accessible connectivity module.

Monitor support

The monitor support can take a range of displays up to 60" and 45kg in weight. VESA mounting is 400 x 400 screens.



Secure TechWell™ access for integration and maintenance

The monitor support can take a range of displays up to 60" and 45kg in weight. VESA mounting is 400 x 400 screens.

TechWell™ options

The WorksZone range has a variety of TechWell™ options which can accommodate most AV/IT system requirements

Cable management

TechWell™ offers complete cable management. All AV technologies can be securely hidden behind lockable doors and can pass easily through to apertures in the worktop

Spillage gutter

The gaps surrounding the central connectivity module has been designed to accommodate a gutter system to prevent any spillages from damaging any electronic equipment inside the TechWell™

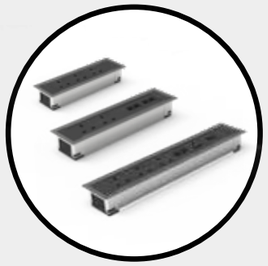
Central connectivity module

The CCM can be customised with a range of input options: From power, data and HDMI to 3rd party control panels and cable retractor systems.

WorksZone | Accessories and Options

WorksZone has a range of accessories and options that can integrated securely within the 19" rack enclosure or on the central connectivity module in the centre of the table. Providing you with ergonomic accessibility to help drive collaboration in your meeting or session.

Connectivity options



Power bar modules

TeamMate Power bars have the option to be fully customised with various connectivity options: From power to HDMI and Display port, choose the right configuration to suit you.

Power Puck

Power puck is a surface module that is angled for ergonomic use and to avoid spillages. Each Puck can be customised with Twin Fast USB charge and flying HDMI lead.

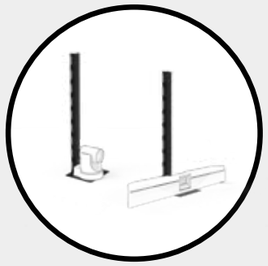
Cable Retractor

TeamMate's very own cable retractor has been cleverly designed with a weighted pulley system to stop trailing cables across your workspace.

3rd party integration

WorksZone Tables can accommodate a range of 3rd party AV products: Whether they are integrated in the CCM or in the 19" rack space in the TechWell.

Other accessories

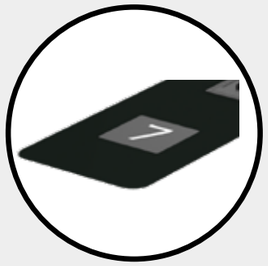


Sound bar mount

TeamMate can accommodate a range of sound bar and VC camera options with our WorksZone brackets.

Eve Mesh Task Chair

Our highly popular Eve Mesh Task Chair is a great addition to our WorksZone range of products.



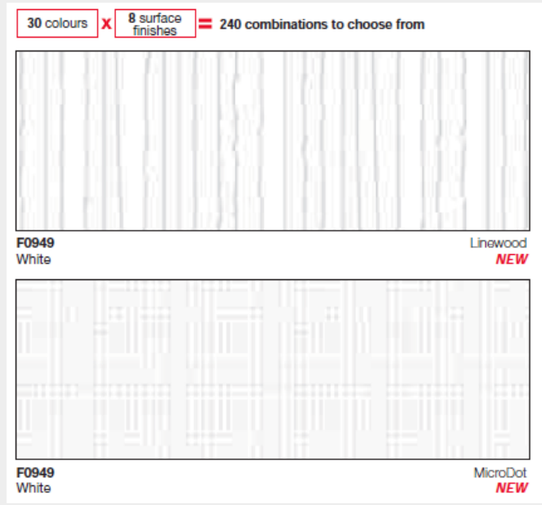
Recessed number

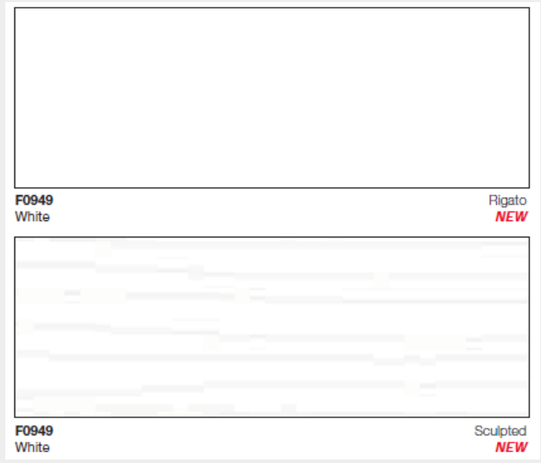
Unique number identification is a great way of separating various tables in a classroom or training facility.

Installation

TeamMate can deliver and install your workspace furniture, saving you the hassle.

Worktop colour options





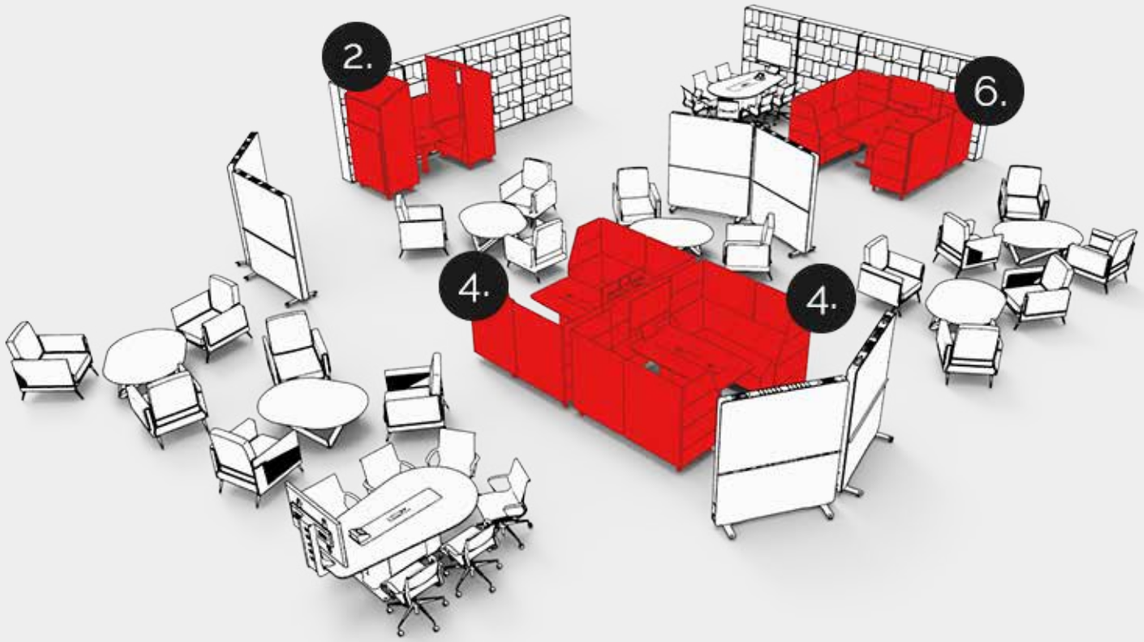
WorksZone | Layout Tips

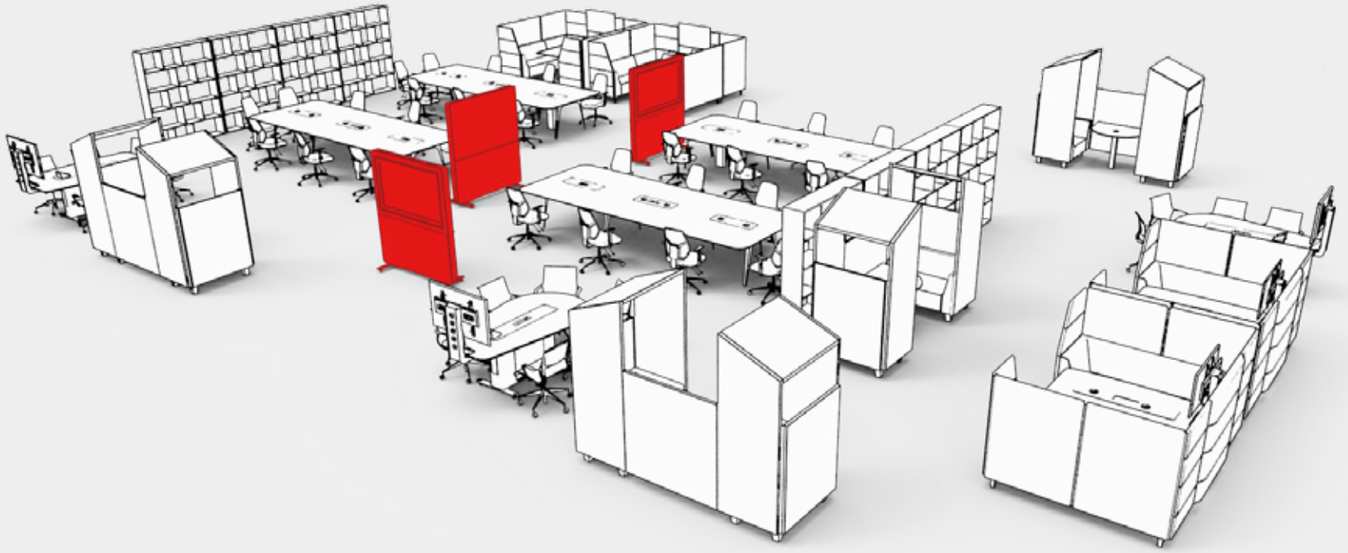
WorksZone Tables can help you solve problems relating to work spaces. Each solution can help create huddle areas, breakout meeting spaces and of course fully integrated and technology ready classrooms, Our layout tips from our space planning and design service can help maximise your space potential.

Breakout collaboration space

In areas where you actively want to encourage users to the furniture in a reception area and engage with the technology, we recommend WorksZone Ellipse Collaboration Tables for around 5 users. You want to attach groups of people to either sit or stand around a table and plug their devises in, to share content with that group and engage collectively.

For more private discussions, WorksZone Pod 2, 4 and 6 seat options could be utilised. These offer a sanctuary for discussions where you don't want to be overheard or you want quiet working time.





Library space

When your library space is in constant use with brainstorming, meetings and people wanting to sit either groups or go it alone in a more private area, then you need to consider the range of furniture solutions that could appeal to a each person that will be using the space. For example, using a range of Pods will help cater for those who want a more comfortable and quiet approach, and WorksZone Oval or Trapeze can be used for a more social approach.

Other products such as Kobi is a technology enabled, scalable workspace table that can be used in library spaces. Kobi is suitable for libraries as it can be customised with either a screen at the end of the table, privacy screen dividers and variety of power and AV/IT connections. Alternatively the Evolve mobile partitioning system can also be used to divide and create flexible zones within the library environment, giving users that added valuable privacy if needed.

WorksZone | Active Learning Space

University of Dundee - Strawberry Bank Ideas Lab

WorksZone Rectangle

WorksZone Rectangle is the ideal worktop shape for face to face interactions. With a range of worktop colours and finishes, each worktop can be customised to suit various architectural environments.

WorksZone Folding

WorksZone Folding table was designed for flexible collaboration spaces. With the ability to fold and manoeuvre when needed, the WorksZone Folding Table can adapt to the changing demands of spaces today.

Embedded number
(Custom requirements available)

TIP: This shape worktop is ideal for face to face interactions in active learning spaces.

WorksZone | Library breakout space

University of Aberdeen - Library Huddle Space

WorksZone Pod

WorksZone Pod offers more private meetings. With a choice of 4 or 6 seat options, the WorksZone Pod caters for small or medium size groups. The privacy panels that make up the back of the Pod act as acoustic barriers of sound, offering users a quiet alternative working.

Embedded number
(Custom requirements available)

WorksZone | Equality Act Compliant

London Metropolitan University

WorksZone Table - Height adjustable

Every space needs to be equality act compliant. WorksZone has revolutionised the ability for a sit/stand workplace. With twin height adjustable actuators, the WorksZone can rise and fall at a touch of a button. Giving users the ability to choose how they want to work.

TIP: This shape worktop is ideal for face to face interactions in active learning spaces.
