## Totem SBS

PART CODE: TOTEMSBS

The Totem SBS is a self-contained AV Credenza with built in screen mounting facility that significantly reduces the distance of the screen from the wall.

### Features & Benefits

- >> Floor to wall mounted self contained solution
- >> Set back screen design with AV credenza style rack mounted below
- >> Screen offset from wall significantly reduced
- >> Supports screen sizes from 55" - 90"
- >> 6U vertical rack mounting in bottom enclosure
- >> Ideal for seminar and meeting rooms
- >> Customisable interface panel
- >> Secure lockable front and side doors
- >> PC enclosure with adjustable straps (choice of left or right)
- >> Tower or compact PC compatible
- >> Efficient natural convection cooling system
- >> Storage shelf for internal AV equipment

### Overview

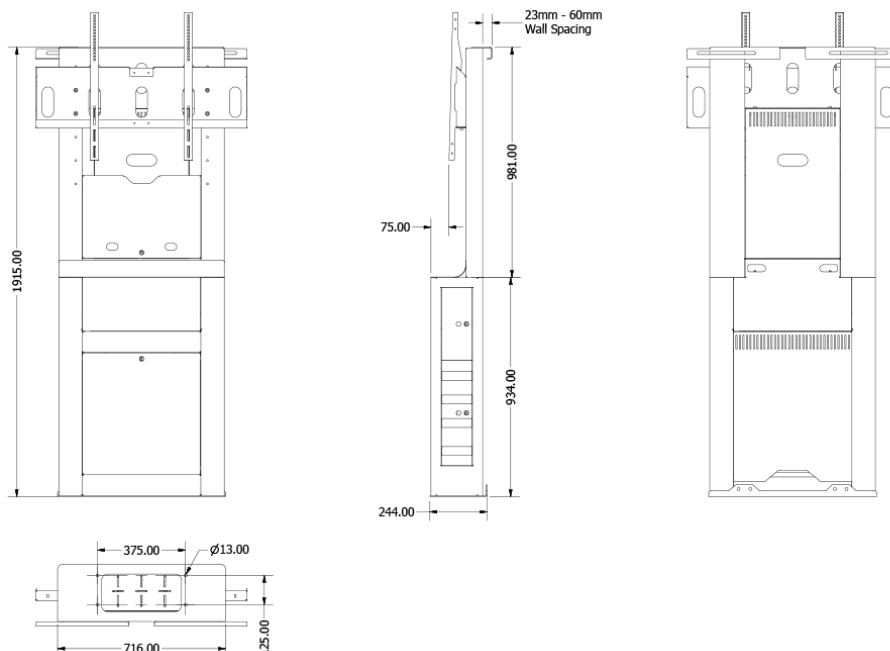

The Totem SBS (set back screen) is the latest addition to the Totem product range combining sleek design with unparalleled functionality. The Totem SBS is a self-contained AV Credenza with built in screen mounting facility that significantly reduces the distance of the screen from the wall.

The set-back-screen design, enables it to sit as far against the wall as possible, whilst still offering up to 3U vertical rack space on each side. AV control panels and input plates can be cut out into various locations on the Totems interface. Tower PC's and/or other collaborative systems can be securely locked away or accessed through fascia plates on the rack sides if needed.
