- >> Cable feed-through apertures for joining other desks together
- >> Power options available for external devices
- >> Adjusting levelling feet
- >> Metalwork in black or white powdercoat paint as standard
- >> Worktop in Formica laminate with edge banding

Overview

TeamMate Laptop Cubby Desk is a modular and scalable desking system for the provision and storage of integrated laptops for classrooms and training rooms.

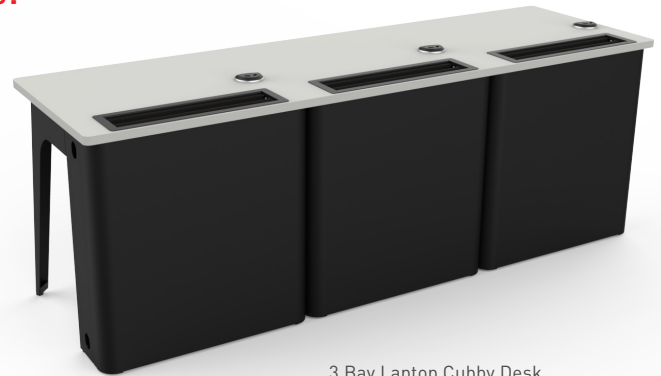

Each desk encloses several laptop cubbies which have a fabric lining to ensure no damage is caused when laptops are placed, each cubby has a compartment and apertures for power cables to stay clear of the worktop and thus maximise workspace for users whilst maintaining constant charging of the laptop. The Laptop Cubby Desk has a lockable door for access for any maintenance needed giving technicians direct access to a shelf for the laptops power bank and any other AV/IT required.

EXAMPLE CLASSROOM WITH LAPTOPS STORED IN THE DESKS CUBBY SYSTEM - PROVING SPACE FOR USERS OWN DEVICES/LAPTOPS IN ADDITION TO CLASSROOM LAPTOPS.
