- >> Cable feed-through apertures for joining other desks together
- >> Power options available for external devises
- >> Adjusting levelling feet
- >> Metalwork in black or white powercoat paint as standard
- >> Worktop in Formica laminate with edge banding

Overview

TeamMate Pop-up PC Desk is a modular desking system that enables an all-in-one screen to rise and fall at the touch of a button.

Each desk encloses several all-in-one PC's with a storage well for keyboard and mouse when not being used. Once the PC is fully retracted, the worktop lid closes softly ensuring a neat join with main worktop. Access has been made easy with a lockable enclosure revealing an internal rack board for servicability.

Transform classrooms and training rooms at a push of a button; from PC mode - to BYOD mode the direction of the session can change in an instant.
